

# SMART AQUA EPOXY PUTTY

EASY TO USE • HARDENS IN MINUTES • THOUSANDS OF USES

**Smart Aqua Epoxy Putty** is an easy to use, no mess, non-toxic instant repair system that can be applied to damp, wet or underwater substrates in both fresh or salt water.

**Smart Aqua Epoxy Putty** provides strong adhesion to substrates such as fibreglass, metal, wood, concrete, ceramic and glass.

Once **Smart Aqua Epoxy Putty** completely cures, it can be sanded, filed, drilled, machine and painted.

Ideal for emergency in-water repairs to holes, cuts and scratches in boats, tubs, sinks, spas, pools, water tanks, etc.
