

# ***SMART COPPER EPOXY PUTTY***

EASY TO USE • HARDENS IN MINUTES • THOUSANDS OF USES

**Smart Copper Epoxy Putty** is an easy to use, no mess, non-toxic instant repair system.

Made from copper-reinforced polymer, **Smart Copper Epoxy Putty** provides industrial strength adhesion to copper and wide range of other metal. It also provides good adhesion on other materials such as wood, stone, concrete, glass, ceramics and rigid plastics.

Once **Smart Copper Epoxy Putty** completely cures, it can be sanded, filed, drilled, machine and painted.

Ideal for industry or home use. Great for fixing anything copper.
